

OneCert International Appeal Procedure

Operator may appeal any certification decision made by OneCert International.

An operator must appeal to the applicable Regulatory Authority (European Union, Textile Exchange/Global Textile Standards/JAS) within 30 days of receiving the decision letter, or within the time frame specified in that letter—whichever is later. Unless the appeal is timely, the decision to deny, revoke, or suspend your certification will become final.

The operator must include the following information in their appeal:

- a copy of the decision they are appealing; and
- a statement of their reasons for believing that the decision was not proper.

If the appeal is admissible, it is processed by the applicable Regulatory Authority (European Union, Textile Exchange/Global Textile Standards/JAS). Appeals are not suspensive of the decision subject to the appeal. These decisions therefore apply until a new decision has been made after evaluation of your appeal.

Appellant are provided with the notice of the outcome of the appeal handling.
